Edward Hohe and Katie Gouge. "Counterfactual vs Abstract Self-Censorship." Data collection in progress.

Austin Cutler and Edward Hohe. "Blame Attribution for Partisan Polarization." Second round of data collection in progress.

## Research Appointments and Experience

---

**Graduate Research Associate**, Machine Assisted Human Decision Making Laboratory **2024–Present**  
*The Ohio State University, Columbus, OH*

- Designed and analyzed experimental survey data investigating how AI tools can be effectively used in public opinion surveys from a cognitive interviewing perspective.

**Graduate Research Assistant**, Institute of Politics **2021–2023**  
*Florida State University, Tallahassee, FL*

- Designed and analyzed survey data in Florida state representative polls about state elections.
- Assisted researchers with survey design and integrating their modules into omnibus surveys.

**Research Assistant**, The Harkin Institute for Public Policy and Civic Engagement **2019–2021**  
*Drake University, Des Moines, IA*

- Collected and analyzed quantitative and qualitative research on public policy and citizen engagement.
- Led the first project on political behavior, set and executed on an ambitious timeline, decided which data was collected, and headed data analysis and visualization.
